

# CHANGES TO OUR CABIN BAG POLICY

Today, we introduced changes to our seat and cabin bag options, improving choice and flexibility by offering a greater freedom to select exactly which optional extras you need for your flight, without paying for what you don't.

We continually review all of our products so that they best meet our customers' requirements, giving them as much choice and flexibility as possible and ensuring they don't pay for things they don't need. As such, Up Front and Extra Legroom seats will no longer include a large cabin bag, meaning more customers will have the option to add a bag if they want one without having to book a specific seat type. All customers can take a small under seat cabin bag (max 45 x 36 x 20cm) on board free of charge to store under the seat in front.

When booking an easyJet flight, there are a few ways to add a large cabin bag:

1. Purchase a standalone large cabin bag
2. Book a Standard Plus bundle
3. Book a FLEXI fare
4. Use your easyJet Plus membership

If you have an existing booking that includes an Extra Legroom or Up Front seat that was made prior to this change, you will still be entitled to a large cabin bag per the conditions of your booking (please see your easyJet booking confirmation).

## EASYJET PLUS

One of the great benefits of being an easyJet Plus member is the large cabin bag you can take on board with you for free. In the past, due to limited overhead locker space, if there wasn't enough room on your flight, we may have had to put your bag in the hold instead.

From 19th June, we're changing this up. Along with your free large cabin bag, we're now giving you the power to add your bag to your booking, in advance. This will help us to know ahead of your flight how much space we need to make.

How it works

1. Choose your flights
2. Add a large cabin bag to your booking
3. Enter your easyJet Plus number

The price of a large cabin bag will now be deducted from the overall price of your booking. It's easy.

Please note, we are working with our partners to implement this change but they may be working to different timelines. So, in the case where you are unable to add your large cabin bag to your booking via one of our approved channels or a third party booking tool, you have a few options. You could add a large cabin bag to your booking yourself by logging into Manage Bookings on our website or you can contact our Customer Services team who will be able to help you. Please check with your aggregator/GDS/booking platform to confirm functionality if in doubt.
